

Advantages of using Gripple...

- **Saving you time and money in labor**

From initial installation to maintenance and repairs, Gripple products are quick and easy to use and create a neat, professional finish.

- **Join and tension in one**

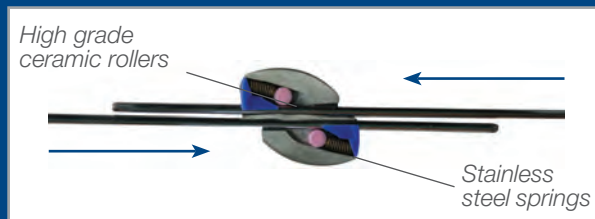

Removes the need for traditional clamps, wire strainers, crimps or knotting.

- **A Gripple product to suit most wire types**

From conventional mild steel to professional high tensile, across a range of wire gauges.

- **Speedy, economic repairs**

Create an inline join with a small section of wire using two Gripple Plus.

Grippler – fencing made easy

Gripper Plus

From initial installation through to maintenance and repair, the Gripper Plus is not only a wire joiner, but a tensioner too.

Gripper Barbed

Taking the hassle out of joining, and knotting barbed wire, the Gripper Barbed creates a secure installation with a simple push-fit mechanism.

Gripper Anchor

The Gripper Anchor creates a strong anchor point underground that is instantly loaded, and will perform in a variety of soil types.

Gripper T-Clip

The quick and easy way to tie-off at an end post, the Gripper T-Clip is ideal for use on all types of netting, or where space is tight.

Gripper Bracing Kit (GPAK 4)

The Gripper Bracing Kit presents an easy-to-handle, simple-to-use bracing solution that can be installed in less than one minute.

Contractor Tool

This all-metal tensioning tool combines long handles with internal gears, to take the strain out of tensioning your fence.

Gripper Twister

The Gripper Twister secures the tail wire giving a professional, safe and secure finish.
